

Our Savior's Prayer Emphasis:

Community Transformation Through Powerful, Passionate Prayer

We are so often deceived into believing that our enemy is other people around us. However, God tells us that our enemy is the forces of spiritual darkness. When we read the Bible, we usually assume references to "rulers" means humans. But the Bible may likely be referring to cosmic powers instead. Remember that Satan is considered to be the "god of this world." Especially in the Church, we are to be united in praying against our common foe. Too often we see each other as the enemy. Then the only winner is Satan.

Please join us in specific daily prayer where we are committed to:
